A Simple Way for Restaurants to Save Money on Labor

Placing Our "Live View" Inside the Restaurant Can Save You Thousands of Dollars Per Month

The Results Are In!

With EmployeeMetrics®, employee shifts are an average of 2-7 minutes less. This equates to \$1,200-\$4,000 in labor cost savings per month.*

With EmployeeMetrics®, meal period adherence improves by an average of 5-15 percent. **This** equates to \$1,500-\$4,500 less in meal premiums per month.*

With EmployeeMetrics®, managers have **15-60** additional minutes per day to focus on the business rather than on timekeeping headaches.*

* Results are derived from existing customers' data. The numbers listed are for a restaurant location with 50 hourly employees.

Start saving now at no cost for the first month.

If you are happy with the experience, sign up with a monthly or yearly payment plan.

The Many Benefits of Our Approach

Labor Costs Savings

By displaying **real-time** timekeeping data inside the restaurant, employees' hours more closely align with their expected shift length, thereby decreasing unauthorized time on the clock.

Meal/Rest Period Adherence

Our **color-coded display** ensures that employees know by when their breaks should be taken and when breaks have been recorded.

Lawsuit Protection

Our **add-on to timekeeping** has helped employers show that compliant meal and rest periods were provided.

Stay Up to Date

Managers/administrators can track employees' hours and breaks through our **notifications and end-of-day reports**.

A Healthier Workplace and Workforce

More transparency, less micro-management, and getting people to take breaks helps businesses **thrive!**

Think of what you could do if you saved thousands of dollars per month on labor

- Give your employees higher wages
- Add more staff
- Keep customers' prices down
- Invest in future growth

EmployeeMetrics® works alongside existing POS/timekeeping systems, including:
